DECODING THE ~~100~~ MOST INTRIGUING ILLUMINATI CARDS

---

UPDATED: JULY 14<sup>TH</sup> 2024

# INTRODUCTION

- Illuminati: New World Order (INWO) is an out-of-print collectible card game that was released in 1995 (worked on from 1990-1994) by Steve Jackson Games. The complete set has over 400 cards, and over 20 million are in circulation.
- On the surface it's a card game for teenagers in the 90's.
- Everything written here is unofficial & unconfirmed. These are just my notes, some are my own interpretations, others I found online.

Air Magic = Aether?

via @jackiefriman\_

**AETHER** is a type of energy current, it's in the air and essentially everywhere. It is the medium for electromagnetic waves, from radio waves to gamma rays. Much is hidden from us regarding this energy system, and many of the ancient structures were built to harness it.

Haven't you ever wondered why the whole system hasn't been upgraded to better technology like everything else in our world?

# ORGONE GRINDER (1995)

Dr. Wilhelm Reich (1897 - 1957)

Some researchers have suggested that Reich is a fictional character developed to conceal aether.

"In the 1930s, Wilhelm Reich, M.D.—an Austrian psychiatrist, psychoanalyst and scientist discovered a powerful, new biological energy, and for the next two decades devoted his life to the investigation of its laws and properties. Reich confirmed the existence of this energy in the human body, verified its presence in the atmosphere, developed instrumentation to observe and collect it, and harnessed it for a variety of purposes from cancer treatment to motor power to weather experimentation.

Reich called his discovery "orgone energy." But, sadly, it was a discovery that the world was not ready for."

## WORLD WAR III

The Third World War must be fomented by taking advantage of the differences caused by the "agentur" of the "Illuminati" between the political Zionists and the leaders of Islamic World. The war must be conducted in such a way that Islam (the Moslem Arabic World) and political Zionism (the State of Israel) mutually destroy each other. Meanwhile the other nations, once more divided on this issue will be constrained to fight to the point of complete physical, moral, spiritual and economical exhaustion...We shall unleash the Nihilists and the atheists, and we shall provoke a formidable social cataclysm which in all its horror will show clearly to the nations the effect of absolute atheism, origin of savagery and of the most bloody turmoil. Then everywhere, the citizens, obliged to defend themselves against the world minority of revolutionaries, will exterminate those destroyers of civilization, and the multitude, disillusioned with Christianity, whose deistic spirits will from that moment be without compass or direction, anxious for an ideal, but without knowing where to render its adoration, will receive the true light through the universal manifestation of the pure doctrine of Lucifer, brought finally out in the public view. This manifestation will result from the general reactionary movement which will follow the destruction of Christianity and atheism, both conquered and exterminated at the same time.

To this day, nobody has ever excavated a complete dinosaur skeleton. Hence, the various species of dinosaurs are all artist's imaginations. Before the 1800's, nobody had ever heard of a "dinosaur," nor had anyone anywhere throughout the ages discovered a single "dinosaur fossil." This includes every single culture from around the world, from the Native Americans to the Ancient Egyptians.

The prehistoric monsters seen in museum exhibits are all plaster casts; "real" dinosaur bones are only allowed to be seen by a special group of government appointed Paleontologists. The whole dinosaur industry is propaganda—created as a way to validate Darwin's false theory of evolution.

## Illuminati

The Illuminati is a name given to several groups, both real and fictitious. Historically, the name usually refers to the Bavarian Illuminati, an Enlightenment-era secret society founded on 1 May 1776 in Bavaria, today part of Germany. The society's goals were to oppose superstition, obscurantism, religious influence over public life, and abuses of state power. "The order of the day," they wrote in their general statutes, "is to put an end to the machinations of the purveyors of injustice, to control them without dominating them." The Illuminati—along with Freemasonry and other secret societies—were outlawed through edict by Charles Theodore, Elector of Bavaria with the encouragement of the Catholic Church, in 1784, 1785, 1787, and 1790. In the following several years, the group was vilified by conservative and religious critics who claimed that they continued underground and were responsible for the French Revolution. Porn is a weapon. Each time porn is viewed, brain damage is incurred by a flood of synthetically generated dopamine. Porn also disconnects the viewer from reality and degrades the relationship between men and women, making it easier to control the population. If something is free, you are the product.

Divide and Rule

race, religion, class, age, politics... keep us in a perpetual state of conflict and we'll never fight them

## HOW EMPIRE BUILDERS USED DIVIDE AND RULE

THE strategy of 'Divide and Rule' was a central principle of British imperial policy for more than two centuries.

By keeping different ethnic groups segregated, and allowing them to squabble among themselves, the idea was they would be too tired to overthrow their colonial masters.

As empires expanded, tribal groups were classified on the basis of language, religion, and ethnicity and given different rights. A toxic example was in Rwanda where the

Belgians segregated the Hutu and Tutsis. The lighter-skinned Tutsis were given land and privilege, while the Hutu were made to do labouring work. After the Belgians withdrew, ethnic divisions led to the massacre of 900,000 Tutsis.

In India, rivalries between warring states and religious groups were exploited by the British.

But in the months leading up to independence, the divisions spilled over into violence as the sub-continent split into predominantly Hindu India and Muslim Pakistan.

## Phantom time hypothesis

From Wikipedia, the free encyclopedia

The **phantom time hypothesis** is a historical conspiracy theory asserted by Heribert Illig. First published in 1991, it hypothesizes a conspiracy by the Holy Roman Emperor Otto III, Pope Sylvester II, and possibly the Byzantine Emperor Constantine VII, to fabricate the Anno Domini dating system retrospectively, in order to place them at the special year of AD 1000, and to rewrite history<sup>[1]</sup> to legitimize Otto's claim to the Holy Roman Empire. Illig believed that this was achieved through the alteration, misrepresentation and forgery of documentary and physical evidence.<sup>[2]</sup> According to this scenario, the entire Carolingian period, including the figure of Charlemagne, is a fabrication, with a "phantom time" of 297 years (AD 614–911) added to the Early Middle Ages.
